## **Don't Forget!**

**February 13, 2002 - EMC Meeting**

## ***Pesticide Neighbor Notification Committee***

We have invited a representative from NYPIRG (Public Interest Research Group), Jason Brown, to attend our next EMC meeting and discuss the Neighbor Notification Law. We are sending an email to all members that includes Links to three articles which provide some background information and different perspectives concerning the pesticide issue. Please do your homework and read them. The Tompkins County BOR's are expecting the EMC to provide an informed decision concerning opting-in to this new law.

## ***Education Committee***

The EMC's Adopt -a- Highway 2 mile long stretch will be on Route 13. It starts near Sand Creek Rd, and goes south to the intersection with Rt.96/34. This section goes next to 3 UNA's, within 1/4 mile of 5 other UNA's, past 2 State Parks, and the Ithaca Beer Brewery. So it should be rewarding and fun to maintain. The NYS Highway Department will provide all equipment and training announcements.
